

INDEX

	PAGE
Address of President West.....	100
Air Furnaces; Comparative design and working of.....	46
Air Furnaces and Cupolas; A Plea for Lower Blast Pressures for.....	142
Alloys; A talk on.....	15
Analysis of Iron; Report on standard Methods of.....	29
Antisell, F. L.: Electricity in the Foundry.....	87
Associated Foundry Foremen; Convention Report of.....	99
Barrows, W. A. Jr.: The Influence of different Ore Mixtures on the resulting Pig Iron, from the Standpoint of the Foundry.....	79
Beds; Report on standard Methods of making.....	30
Belden, A. W.: Address on U. S. Fuel testing Plant.....	116
Beneficial Effect of Adding High Grade Ferrosilicon to Cast Iron.....	5
Best, T. J.: Manufacture of Soil Pipe & Fittings.....	9
Binders; Core	34
Blast Pressure, low, for Cupola and Air Furnace.....	142
Brass Founders' Association; Committee on.....	115
Carnegie Technical School; Report on.....	108
Carbon, total; Standard Method of determining.....	29
Carr, W. M.: Developments in the Thermit Process for Foundry.....	24
Cast Iron; Beneficial effect of adding Ferrosilicon to.....	5
Cleveland Convention Entertainment Features.....	121
Cleveland Convention; List of those in attendance at.....	131
Cleveland Convention; Transactions of the.....	97, 100
Cleveland Patternmakers Club; Pattern Shop Equipment.....	39
Coke Tests, U. S.; Discussion on.....	150
Coke; U. S. Fuel Testing Plant. Foundry tests of.....	19
Coleman, W. H.: Low Blast Pressure for Cupola and Air Furnace.....	142
Convention Exhibits	124
Convention Souvenirs	138
Core Binders	34
Cost Finding; Uniform Practice in Foundry.....	22
Costs; Correct Application of true Burden to Iron.....	13
Crane, electric, in Foundry.....	31
Croxton, H. A.: Modern Pipe Foundry.....	91
Cupola; Design and working of Air Furnaces and.....	46
Cupola; Fluxes in the.....	89
Cupola and Air Furnaces; A Plea for lower Blast Pressures in.....	142
Diller, H. E.: Report on standard Methods of analyzing Iron.....	29
Election of Officers.....	114
Electric Crane in the Foundry.....	31
Electricity in the Foundry.....	87
Entertainment Features at the Convention.....	121
Equipment of Pattern Shop	39
Evils and Restriction of Carelessness.....	151
Exhibits at the Cleveland Convention.....	124
Falconer, Kenneth: Uniform Practice in Foundry Cost Finding.....	22
Ferrosilicon added to Cast Iron; Beneficial Effects of.....	5

	PAGE
Fittings and Soil Pipes; Manufacture of.....	9
Fluxes in the Foundry.....	89
Founders' Supply Association.....	114, 117
Founders' Supply Association Officers.....	120
Foundry Costs; Committee on.....	116
Foundry Cost Finding; Uniform Practise in.....	22
Foundry Pig Iron; Effect of Ore Mixtures on.....	79
Foundry Practise; Dark Secrets in.....	16
Foundry Tests of Coke; U. S.....	19
Iron Costs; Correct Application of true Burden to.....	13
Iron; Report on standard Methods of Analysis of.....	29
Laboratory Examination of Molding Sand.....	63
Lane, H. M.: Vote of Thanks for.....	116
List of those in attendance at Convention.....	131
Loudon, A. M.: Core Binders.....	34
McFadden, W. H.: President of A. F. A. Biography of.....	140
McQuillan, W. S.: Why good Molders are scarce.....	26
Machine Molding; Recent Methods of.....	59
Manufacture of Soil Pipe and Fittings.....	9
Metallurgical Section of the A. F. A. Report of Secretary of.....	29
Modern Pipe Foundry.....	91
Moldenke, Dr. R.: Discussion on U. S. Coke Tests.....	150
Moldenke, Dr. R.: Secretary's Report.....	106
Moldenke, Dr. R.: U. S. Coke Tests for Foundry.....	19
Molding, Machines; Recent Methods in.....	59
Molding Problems	18
Molding Sand; Laboratory Examination of.....	63
Molders, good; Scarcity of.....	26
Molds; Multiple	83
Multiple Molds	83
Mumford, E. H.: Recent Methods of Machine Molding.....	59
Officers elected for 1906-1907.....	114
Ore Mixtures; Influence of on Foundry Pig Iron.....	79
Outerbridge, A. E. Jr.: Beneficial Effects of adding High Grade Ferrosilicon to Cast Iron	5
Philadelphia Foundrymen's Association; Invitation for next Convention.....	116
Pig Iron; Influence of Ore Mixtures on.....	79
Pig Iron; 20 years' Improvement in quality of.....	56
Pipe Foundry; Modern.....	91
Parry, W. H.: Dark Secrets in Foundry Practice.....	16
Pattern Shop Equipment.....	39
Presidential Address	100
Problems in Molding	18
Report of Secretary	106
Report on Carnegie Technical School.....	108
Restriction and Evils of Carelessness.....	151
Ries, Prof. Heinrich; Laboratory Examination of Molding Sand.....	63
Sanborn, E. R. and E. H. Williams: 20 Years' Improvement in Pig Iron.....	56
Sand, molding; Laboratory Examination of.....	63
Sayer, Harry: Electric Crane in the Foundry.....	31
Seaman, J. S.: Report on Carnegie Technical School.....	108
Secretary's Report	106
Shed, N. W.: Fluxes in the Cupola.....	89

	PAGE
Soil Pipes and Fittings; Manufacture of.....	9
Souvenirs at the Cleveland Convention.....	138
Spence, David: Molding Problems.....	18
Standard Methods of Analysis of Iron, Report on.....	29
Standard Method of determining Sulphur.....	30
Standard Method of determining Total Carbon.....	29
Standard Methods of making Beds, Report on.....	30
Sulphur; Standard Method of determining.....	30
Taylor, E. M.: The correct Application of true Burden to Iron Costs.....	13
Thermit Process, development in Foundry Practice.....	24
Thomas, E. H.: Report on Standard Methods of making Beds.....	30
Total Carbon; Standard method of determining.....	29
Transactions of Cleveland Convention.....	97, 100
Twenty Years Improvement in quality of Pig Iron.....	56
Uniform Practice in Foundry Cost finding.....	22
U. S. Coke Tests; Discussion on.....	150
U. S. Foundry Tests of Coke.....	19
Vickers, C.: A Talk on Alloys.....	15
Webb, Jas. F.: Multiple Molds.....	83
West, R. H.: Comparative Design and working of Air Furnaces.....	46
West, Thos. D.: Election as Honorary Member.....	115
West, Thos. D.: Evils and Restrictions of Carelessness.....	151
West, Thos. D.: Presidential Address.....	100
Williams, E. H. and E. R. Sanborn: 20 Years' Improvement in quality of Pig Iron	56

54
